REMARKS

The figures of births and deaths shown in this statement for week ending the 21st May, 1955 relate to 193 towns with an estimated population of 26,898 thousands. The total number of towns is 298 and their population is 37,313 thousands. Thus 64% of the total number of towns representing 69% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,104 and 7,033 representing birth and death rates of 27.3 and 13.6 per thousand of population, respectively.

(a) *States (Part A & C).*—The data here relate to 167 towns with an estimated population of 23,182 thousands. Information about Ajmer, Bhopal, Bihar and West Bengal could not be included. The total number of towns is 250 and their population is 31,696 thousands. Thus 66% of the total number of towns representing 71% of the total population is covered. The number of births and deaths

recorded in these towns were 12,801 and 6,192 representing birth and death rates of 28.7 and 13.9 per thousand of population, respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 26 towns with an estimated population of 3,716 thousands. The total number of towns is 48 and their population is 5,617 thousands. Thus 54% of the total number of towns representing 58% of the total population is covered. The number of births and deaths recorded in these towns were 1,303 and 841 representing birth and death rates of 18.2 and 11.8 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
